RiverClub

- A failing sump pump at the RiverClub has been replaced with an upgraded and more energy efficient model.
- One of the large overhead pool lights has been rewired and is now functioning properly.
- The source of the rust-colored water by the pirate ship has been identified and a solution is being explored by FPL.

RiverHouse

- All the tennis courts have had clay added to bring them to back to standard.
- A faucet in the poolside restroom has been replaced due to a fault motion sensor.
- The Community Garden has been renovated with more beds filled and hose fittings repaired.
- If you are interested in a spot in our Community Garden, get registered in our lottery! Email [Eric Olsen](#) to get signed up! Drawings will be held March 1st, 2023.

Common Areas

- The solar light on the Haven’s sign has been replaced.
- A streetlight on Landing Street has been reconnect to power after a faulty connection was discovered.
- We have been painting sun-faded benches throughout the community.
- An electrical box at Sternwheel Park has been replaced due to rust.

News from

- Teams have trimmed back the walking trails at RiverFront Park for better clearance.
- Ornamental grasses are still in the process of being scaled back for winter length.
- Once the freezes are officially behind us Yellowstone will be cutting back the Roses and Blue Daze flowers.

What to Plant in February

Bedding Plants: Opt for plants that can withstand colder weather such as pansy, viola, and dusty miller. Ensure that any plants added this month can survive freezing temperatures.

Bulbs: Many bulbs, such as dahlias and crinum, can be planted in February. Remember to provide adequate amounts of water and use mulch to protect them from low temperatures.

Flowering Plants: Trees and shrubs that will be in bloom include red maple, star magnolia, and spirea.

Vegetables: Potatoes can be planted this month—purchase healthy seed pieces from your local nursery and plant three inches deep. Remember not to add lime to your potato planting bed.

EDIBLES TO PLANT IN February

	North	Central	South
 EASY TO TRANSPLANT	Arugula, Beets, Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Chinese Cabbage, Collards, Eggplant, Endive, Kale, Kohlrabi, Lettuce, Peppers, Swiss Chard, Tomatillo, Tomatoes	Arugula, Beets, Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Chinese Cabbage, Collards, Eggplant, Endive, Ginger, Kale, Kohlrabi, Lettuce, Peppers, Sugarcane, Swiss Chard, Tomatillo, Tomatoes	Arugula, Chinese Cabbage, Eggplant, Endive, Ginger, Kohlrabi, Lettuce, Peppers, Sugarcane, Swiss Chard, Tomatillo, Tomatoes, Tropical Spinaches
